UNITED STATES FOREIGN TRADE

JULY 1951

SUMMARY REPORT
FT 950

FOR IMMEDIATE RELEASE

September 27, 1951

TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the decrease in United States exports of domestic and foreign merchandise from \$1,142.1 million in June to \$1,049.7 million in July reflected lower exports to all continents except Africa and the area of Australia and Oceania. The decline in general imports from \$929.2 to \$893.3 million during the same period resulted from decreased imports from all continents except Asia and North America.

Exports, including special category commodities, to E.R.P. countries fell from \$416.5 million in June to \$359.7 million in July while imports from these countries increased from \$163.8 to \$166.5 million. Exports, including special category commodities, to the Latin American Republics declined from \$321.9 to \$316.6 million and imports from these countries dropped from \$250.7 to \$248.1 million during this same period. Meanwhile, exports, excluding special category commodities, to the Sterling area countries advanced from \$163.5 to \$176.9 million while imports from these countries decreased from \$220.9 to \$200.9 million.

Exports to Europe, the continent registering the largest decrease in exports from June to July, dropped from \$339.0 to \$283.5 million excluding special categories.¹ Sizeable decreases occurred in exports to some of the individual countries of this continent, as follows: Italy from \$38.6 to \$20.5 million, the Netherlands from \$26.1 to \$16.1 million, Germany from \$41.8 to \$32.4 million, Yugoslavia from \$16.9 to \$7.7 million and Austria from \$12.6 to \$3.8 million. The decline in exports to North America from \$375.2 million in June to \$337.7 million in July resulted largely from decreased exports to Canada, which dropped from \$236.9 to \$202.5 million. Exports to Asia declined from \$173.8 million in June to \$165.8 million in July. Exports to Japan fell from \$45.6 to \$36.0 million while exports to Israel and Palestine rose from \$5.9 to \$11.3 million during this period.

From June to July, exports to South America dropped from \$186.5 to \$182.9 million. Exports to Venezuela decreased from \$39.5 to \$35.2 million and exports to Colombia fell from \$24.0 to \$20.1 million. During this same period, exports to Africa rose from \$48.7 to \$56.2 million, as relatively minor changes occurred in exports to the individual countries of this continent. Exports to Australia and Oceania advanced from \$18.9 million in June to \$23.7 million in July chiefly as a result of an increase in exports to Australia from \$12.7 to \$16.7 million.

Imports from Australia and Oceania decreased from \$58.0 million in June to \$36.4 million in July, reflecting a decline in imports from Australia from \$49.8 to \$22.9 million. Imports from Africa also registered a sizeable decrease, falling from \$55.8 million in June to \$39.8 million in July. The most important decreases in imports from countries of this continent were as follows: the Gold Coast from \$11.1 to \$1.8 million, the Union of South Africa from \$14.4 to \$8.5 million and Egypt from \$5.2 to \$0.3 million. Meanwhile, imports from the Belgian Congo rose from \$2.8 to \$9.2 million. From June to July, imports from South America declined from \$171.2 to \$161.2 million. This decline reflected an important decrease in imports from Brazil from \$64.6 to \$54.7 million. However, imports from Colombia rose from \$26.9 to \$37.2 million.

Imports from Europe dropped slightly from \$178.1 million in June to \$175.2 million in July. Imports from Finland decreased from \$8.0 to \$3.7 million while imports from the United Kingdom advanced from \$38.7 to \$44.2 million. The increase in imports from Asia from \$178.7 million in June to \$190.9 million in July was chiefly the result of a rise in imports from British Malaya from \$36.3 to \$52.3 million and Indonesia from \$18.3 to \$25.3 million. During this same period, imports from North America also registered an increase, rising from \$287.3 to \$289.9 million.

¹All figures which follow in text exclude special categories. Country of destination detail is not reported in export statistics for special category commodities beginning July 1950, for security reasons. For certain areas, export totals include special categories, as mentioned in the text above and as shown at the beginning of the table on page 3. Export figures for other areas and countries represent total exports less exports of special category commodities. See September 1950 and March 1951 issues of Foreign Trade Statistics Notes for further explanation and lists of special category commodities.

Coverage

Export statistics include, with certain exceptions, data on all shipments of merchandise to foreign countries from continental United States, Puerto Rico, and the territories of Alaska and Hawaii. They do not include shipments to the United States armed forces abroad for their own use. Import statistics include, with certain exceptions, data on imports of merchandise from foreign countries into continental United States, Puerto Rico, and the territories of Alaska and Hawaii. Neither the import nor export statistics include shipments between continental United States and its territories and possessions, or between the territories and possessions. See Foreword to Foreign Commerce and Navigation of the United States for complete statement.

None of the export or import figures has been adjusted for changes in price level.

FOREIGN TRADE REPORTS OF THE BUREAU OF THE CENSUS

Summary reports showing monthly data on the trade of the United States with foreign countries are issued as follows:

- FT 900 - Overall total export and import data; no commodity or country data.
- FT 930 - Exports and imports by economic classes and leading commodities; no country data.
- FT 950 - Exports and imports by countries of destination and origin; no commodity data.
- FT 970 - Foreign trade by United States Customs Districts; no commodity or country data.
- FT 972 - Water-borne foreign trade by United States Customs Districts and ports; no commodity or country data.
- FT 973 - Water-borne foreign trade by trade areas; no commodity or country data.
- FT 976 - Department of Defense controlled cargo under United States foreign aid programs and 'Special Category' non-Department of Defense controlled cargo exported by vessel, by port of lading; no commodity data.
- FT 981 - Shipping weight and dollar value of merchandise laden on and unladen from vessels at United States ports during the intransit movement of the merchandise from one foreign country to another; no commodity or country data.

Additional detailed commodity and country data are available in the form of other FT reports. A catalog of such reports may be obtained from the Bureau of the Census, Washington 25, D. C.

UNITED STATES EXPORTS OF DOMESTIC AND FOREIGN MERCHANDISE BY COUNTRY OF DESTINATION AND UNITED STATES GENERAL IMPORTS BY COUNTRY OF ORIGIN FOR SPECIFIED PERIODS

(Value in millions of dollars. General imports are a total of imports for immediate consumption plus entries into bonded warehouses. N.e.s. indicates not elsewhere specified.)

¹Latin American Republics.

²Sterling area countries.

³E.R.P. countries.

⁴E.R.P. participating dependencies.

⁵Indicates less than \$40,000.

⁶Country of destination detail is not reported in export statistics for special category commodities beginning July 1950, for security reasons. For certain areas, export totals include special categories, as shown at the beginning of the table on page 3. Export figures for other areas and countries represent total exports less exports of special category commodities. See September 1950 and March 1951 issues of Foreign Trade Statistics Notes for further explanation and lists of special category commodities.

⁷Includes \$59.0 million exports under the Mutual Defense Assistance Program (\$82.7 million to E.R.P. countries).

⁸Includes \$112.4 million exports under the Mutual Defense Assistance Program (\$98.1 million to E.R.P. countries).
